TRCS Families,

Our Technology Department is here to support both students and families in remote learning. We are extremely impressed with how well our students are doing with their technology, and how quickly they have learned to navigate Google meets, Google Classroom, SeeSaw and all of the curriculum that has been delivered. I also would like to thank you as parents, guardians, friends and other relatives, for your willingness to help your child achieve success in their new virtual classroom. We could not do this without you!!

The district has distributed over 2200 chromebooks to students this year. We would like to remind you of some helpful tips during remote learning. Please have your student find an area in your home that the chromebook remains. This will not only ensure that the chromebook stays safe, but will also create a dedicated “remote classroom” for your student. Please also have your student take care of the chromebook as if it was their own. We have been seeing an uptick in screen damage and other breakages, and need to keep our chromebooks in good working condition for your student and others to use in the future.

Based on the student handbooks; *Should the student damage the district’s network system and/or equipment by violating the above rules the student/guardian **may have to pay the cost of repair.***

You can find a copy of the student handbooks here:

[Elementary Schools](#) pg. 22

[Middle School](#) pg. 17

[High School](#) pg. 20

If your student should need technical assistance, please use this form:

https://docs.google.com/forms/d/e/1FAIpQLScNs3ob_Fa5f4WRWxmYgejmH4N1yVM70z57gqwOF7_edcKeeA/viewform

Again, thank you in partnering with the TRCS and the Technology team to help ALL of our students have the ability to use technology to its fullest in the district, and while at home during the remote learning period.

Sincerely,
Nick Bryant
Director of Technology
